### STAGE SCHOOL - Established 1985:

We believe within the heart of every child is the natural ability to sing and dance. With this in mind we endeavour to remove the pressures and stresses of expectation. Leaving a playful talent which will be tapped into for the rest of their imaginative lives. The O'Hanlon Stage School will always cherish the spirit of children as it evolves naturally into the talent you have already noticed.

### TALENT:

Now that your child's talent has been nurtured and brought to the surface, a fitting stage of wonder and splendour is required. Our last production aptly named "Let me be your Star" opened to rapturous applause in the Civic Theatre in Tallaght. Our previous productions have taken us to the Helix and the Olympia. All productions have resulted in gleaming faces on parents and child and a story to last forever.
